5th June 2020

Good Afternoon Families. This week we have been welcoming back some of the children to preschool. It has been lovely seeing some familiar faces and seeing the children so excited to be back. Although pre school is looking a little different from normal, and activities prepared are to ensure social distancing as much as possible, the children have been great and are already showing understanding for our regular hand washing routine and our new set up. We look forward to welcoming back more families over the coming weeks.

Honeys Report, Anca

The children have made the most of their individual pack: designing sunhats, recognising and sticking shapes, how to get the correct pencil grip and using scissors. There has been lots of concentration whilst playing some of their favourite games such as The Lunchbox game, Old McDonalds lotto, and they got excited posting the letters after sorting the colour.

Each child has enjoyed exploring their individual trays which have been filled with sand, water and playdough along with various items which develop fine motor. The atmosphere has changed throughout the week as the children have settled in; from quietly listening to stories to signing and playing musical instruments loudly. The noise has accompanied us outdoors whilst playing What's the Time Mr Wolf and counting excitedly for Hide and Seek.

Bumbles Report, Debbie

This week the children have been settling back into pre-school. They have been learning our new routine about hand washing and not touching our friends. The children have read stories and talked about why they have been at home to help understand what has been happening. The children have enjoyed having their own folders with pens, pencils, scissors, glue and activities and even their own ball of play dough.

They have made a beautiful rainbow in craft and have been on a bear hunt on the field with home-made binoculars. We made a road around the pre-school using masking tape, which has been a great hit and the wiggly cars have been in high demand.

In school transitions we have been practising carrying lunch trays piled up with food to replicate the school canteen and putting up hands if we have a question at circle time.

'Have Fun at Home'

We will continue to send out some fun activities for the children to do at home each week. Please send in photos of your children participating and of their wonderful creations. Even though they are doing the activities at home, we can add the photos to their learning journeys at preschool! We love to see the children enjoying the activities we have put together! We also love to hear your feedback.

Reminder: Please can we kindly remind parents/carers not to park cars in the car park, but to use the roads opposite preschool. The car park is for the use of Perryfield's school staff only. Thankyou.

Don't forget to check out our Springfield Bees YouTube page!
